JiuJiang Library In China
九江图书馆

JiuJiang Library, formerly known as JiangXi Province Construction Department Library, established in 1939, TaiHe, JiangXi. It was rated as the National First Class Library during the Fourth and the Fifth Criteria Of The Evaluation For Public Libraries Of China.

九江市图书馆前身为江西省建设厅图书馆，1939 年创办于江西泰和。在第四、第五次全国公共图书馆评估定级中均评定为"国家一级图书馆"。

Case Study
案例分析

User Requirements : library website, Library Book Search, surfing the Web
用户需求：打开图书馆网页，查询图书，浏览网页

	Before 部署前	After 部署后
Deployment Time 部署时间	It is time-consuming to install the new system and software one by one. 传统电脑更新换代, 需逐台安装系统和软件, 部署时间长。	It is speedy to deploy the whole solution and only takes a few seconds to create new users with installing the system for one time. 快速部署, 一次系统软件安装, 便可批量创建新用户。
Up-gradation & User Management 升级管理	Upgrades and patching of all the computers one by one can cost high capital cost and labor cost. 逐台电脑升级软件包、插件包、打补丁, 耗费大量的人力成本, 重复性劳动开销大。	All up-gradation can be centralized on the host, which helps to save much time and improve the work efficiency. 后期所有升级集中在 1 台主机上, 节省大量时间和提高工作效率。
User Experience 用户体验	The Book Search Page response time is slow because of ageing loss and not timely maintenance. 传统电脑由于长时间工作, 磨损及损耗严重, 加上维护不及时, 桌面运行速度慢, 图书查询页面响应慢。	The speed of searching books is quick because the computer can be maintained timely. 由于及时维护主机, 用户查询图书速度快。
File Cleanup & System Security 文件清理&系统安全	Users are free to download a variety of software, which can result in overloaded disk and be easily infected by virus. Each computer needs to be leaned out the users files and kept the anti-virus software updated regularly. 用户自由下载各种软件, 造成电脑资料超负载和感染病毒; 管理人员需要定期对每台电脑进行文件数据清理。	Users have no permission to download the software which improves the overall security of the computer. All desktops can be quickly restored to the previous normal working condition with SAMING EDU on the shared host for only one time. 终端用户没有权限下载软件, 因此可以提高电脑安全性。配合使用桌面还原软件, 一次重启即还原, 用户资料自动清除。

Country : China, Jiangxi
国家： 中国，江西省

End user name : JiuJiang Library
客户名称： 九江市图书馆

Product model： S100
产品型号

Total number deployed : 12 seats in 1 reading room
部署数量 : 12 个坐席, 1 间阅览室

Applications : Sogou Explorer, SAMING EDU
应用软件： 搜狗浏览器，三茗还原软件

Server configuration for each 12 seats :
服务器配置参数 ：

- **CPU:** Intel® Core™ i7-7700K
- **Memory 内存:** 32GB
- **SSD for system and user files 固态硬盘:** 256GB
- **HDD for storage 机械硬盘：** unknown
- **OS 操作系统版本:** WIN7
